 Last chance to order  
 CareerCruising for 2010-11!!!  
 If you missed the Early Bird  
 ordering last spring-NOW is  
 the time to order!!!

# CareerCruising—Your New Complete Guidance System!!!

The East Central Educational Service Center is excited to announce that it is working with CareerCruising to offer discounted career guidance services to member schools. (EBSCO's COIN program will no longer be available through the ECESC.) CareerCruising, an online program, offers state-of-the-art tools for students in grades 6-12, as well as career advisors, teachers, and administrators. Students can store career exploration and planning information, keep track of career development activities, and create career education plans. With seamless integration into the career and education planning process, CareerCruising's Portfolio Tool and Resume Builder lead students effortlessly through the steps of preparing for the world of work. Teachers, advisors, and administrators can use CareerCruising to customize the Portfolio Tool, view and manage student information, and access its comprehensive reporting capabilities.

**All Career Cruising license options include the following:**

1. **Unlimited usage of the program by all students and staff from all computers at each licensed school**
2. **Students and parents are welcome to work with the program from home computers for career and education planning purposes**
3. **Toll free customer support and service**
4. **Monthly update newsletters**
5. **The Career Advisor Management System tools and tracking reports**
6. **Participation in ECESC regional Career Cruising training sessions and Career Cruising live webinar sessions**

Special pricing is being offered to ECESC members for the 2010-2011 school year. Several member schools have been utilizing the free CareerCruising pilot offered during the current school year, and have already placed their orders for this exciting guidance program. **The ECESC will pay the first \$100 of the discounted price shown below**, for your school's choice of license for 2010-2011. (The ECESC will invoice your school for that discounted amount minus the \$100.)

<u>Student population</u>	<u>1-year license</u>	<u>3-year license</u>
1-99 students	\$295 per school bldg.	\$295 per year per school bldg.
100-199 students	\$345 per school bldg.	\$295 per year per school bldg.
200-499 students	\$395 per school bldg.	\$345 per year per school bldg.
500+ students	\$445 per school bldg.	\$395 per year per school bldg.

Prices quoted are for the English version of Career Cruising. Schools who could benefit from having the Bilingual (English and Spanish version) can upgrade to that version by simply adding \$150 to any of the license prices listed above.
